SILVEREXPRESS™

Cross-border transportation can be expensive and challenging to navigate for the inexperienced. No matter where your freight needs to go, QuadExpress will get your shipments there reliably. Simple as that.

As a federally licensed, government-approved international shipping and logistics partner, we offer best-in-class freight solutions for shipments of any size or delivery requirements. Our network of local agents provides expert support in navigating the needs of emerging markets or complex shipping transactions.

CROSS-BORDER LTL AND FTL SERVICES

Whatever you need to ship, wherever you need to ship it, QuadExpress has you covered. We take the complexity out of cross-border delivery by utilizing our vast, reliable carrier network and asset-light approach. With more than 200 countries in our routing system, locations across borders, and decades of successful cross-border deliveries, your shipment is in experienced hands.

We are an extension of your team. From paperwork to collaboration with Customs to final delivery, QuadExpress will handle your entire shipment and allow you real-time tracking access throughout the process.

EXPERTISE

As an independent business unit of a leading global printer, Quad/Graphics, QuadExpress has deep experience in cross-border shipping,

the expertise to deal with changing local regulations and cross-border requirements, and...with no surprises..

You can trust your QuadExpress partners to understand your business challenges and create “one size fits one” solutions from a wide portfolio of options.

- Expert cross-border consultants who can build shipping strategies based on your total volume, capacity and goal
- Critical local contacts with import/export expertise
- One account contact to manage freight from across borders
- Leveraged IT, communications and other support from Quad/Graphics
